

How to Activate DiRoots Plugin Trial Licenses

1. Download and Install All Required Plugins

Download the latest installers from our [website](#) for the plugin you need and then install it.

2. Open the Plugin in Revit

- Launch **Autodesk Revit** on your computer.
- Open the **DiRoots Plugin** you want to activate.

3. Unlock Premium Features

- In the Revit ribbon, locate and open the installed DiRoots plugin.
- **Click the "Unlock Premium" button** at the top of the plugin. If prompted for credentials, proceed to the next section.

4. Request Trial License

- After clicking "Unlock Premium", select the **"Request Trial"** option.

- Then, you can use them to log into your account and have full access to the plugin.

6. You can use the same process for other DiRoots plugins

- Follow the same steps for all DiRoots plugins you want to activate.
- Ensure you use the correct credentials for each trial activation.

7. Troubleshooting and Support

If you encounter any issues during activation or have questions, please:

- Refer to the [Licensing User Guide](#).
- Contact our support team at **support@dirroots.com**.
